INSTRUCTIONS FOR USE OF PARTS CATALOGUE

This parts list is divided into main groups as shown on the preface page. Every main group is divided into sub-groups each of which is prefaced by its corresponding illustration. All parts on the illustration are keyed to the adjoining text pages by an illustration reference number.

Alphabetical and numerical indexes are supplied and can be used to pinpoint the exact location of the part in the listing.

The following procedure should be adopted when selecting a specified part required. Refer first to the Alphabetical Index to show the page and group number of the item. Most items are illustrated with a reference number, corresponding to the number on the left hand side of the adjoining text pages in the column headed "Illus. Ref." Items not illustrated are special accessories, parts packages and in some cases repair packages.

VEHICLE SERIAL NUMBER

The Vehicle Serial Number is stamped on the Vehicle Compliance Plate located on the bulk head panel at the rear of the Engine Compartment.

NEW PART SYMBOLS

Alpha symbols in the extreme right hand column of the text pages headed "CL", are used to indicate new part numbers. The Alpha symbol corresponds to the last digit of the microfiche part number. As an example, a symbol "C" would indicate the new part numbers introduced with FCHE021C. Symbols "A" or "B" appearing in the same column would indicate new part numbers introduced with previous microfiche issues.

An asterisk "*" appearing in the Quantity Column signifies "used as required".

NOTES

The words "UP TO" and "FROM" have been used to signify changes at a certain serial number vehicle date code etc.

TRIM ORDERING INFORMATION

When ordering trim items refer firstly to the Vehicle Data Plate for option and trim code symbols. Refer then to Alphabetical Index and select sub-groups referring to door trims, seat covers etc.

PARTS PACKAGES

Service parts packages containing all parts needed for a specific service operation are listed in their respective groups with related parts. The listing will show adaptability and model application. Often it becomes necessary to know what parts are contained in a service package. To determine this refer to the parts package section in the front of the catalogue. This section contains a secondary listing of all service packages and their components. If no part number appears against the part name this component is service only in that package.

MODEL CODES

In some sections of this part list abbreviated model codes are used to identify parts applicable to a particular model. Examples are:-

GE-M-41 Indicates - used on all GE Medium Price 4 Door Sedans.

GE-H-41 Indicates - used on GE High Prices 4 Door Sedans.

ILLUSTRATIONS

The parts list is comprehensively illustrated to a degree that the reader is able to visually select the part required and refer the key number to the adjoining text. No claim is made that the illustration will conform in every detail to the part required but will be sufficient to correctly select the correct part for its application.

ALPHABETICAL INDEX

An alphabetical index is provided in the front of the parts list as a further help in guiding the reader to locate a part when only the name of the part is available.

NUMERICAL INDEX

The numerical index is provided at the front of the parts list to assist in locating a part should only the part number be available to the reader.

OPTIONAL EQUIPMENT

Some items of equipment which are standard equipment on certain vehicles are available as factory fitted "OPTIONS" on other vehicles. Other options are available on all models as "OPTIONAL EQUIPMENT".

Vehicles so equipped can be identified by the "OPTIONAL EQUIPMENT CODE" which is stamped on the Vehicle Data Plate located on the bulk head panel at the rear of the Engine Compartment.

Contd. Page 6.

<u>CODE</u>	<u>DETAILS</u>	
A57	SPORTS PACKAGE - Includes Instrument Cluster, Body Line Decal, Rear Panel Applique, Quartz Halogen Sealed Beam Unit, Sports Steering Wheel, Protective Mouldings & Black Windshield Wiper Arms and Blades.	GE-H-41
A71	MOULDINGS - Body Side Protective.	GE-M-41
C63	RECLINING BUCKET SEATS - All Vinyl.	GE-M-41 GE-H-41
C67	RECLINING BUCKET SEATS - Cloth & Vinyl.	GE-H-41

R81	RADIO - Intergrated Circuit.	GE-M-41
V10	VINYL ROOF.	ALL MODELS.
W12	ROAD WHEELS - Cast Alloy.	ALL MODELS.

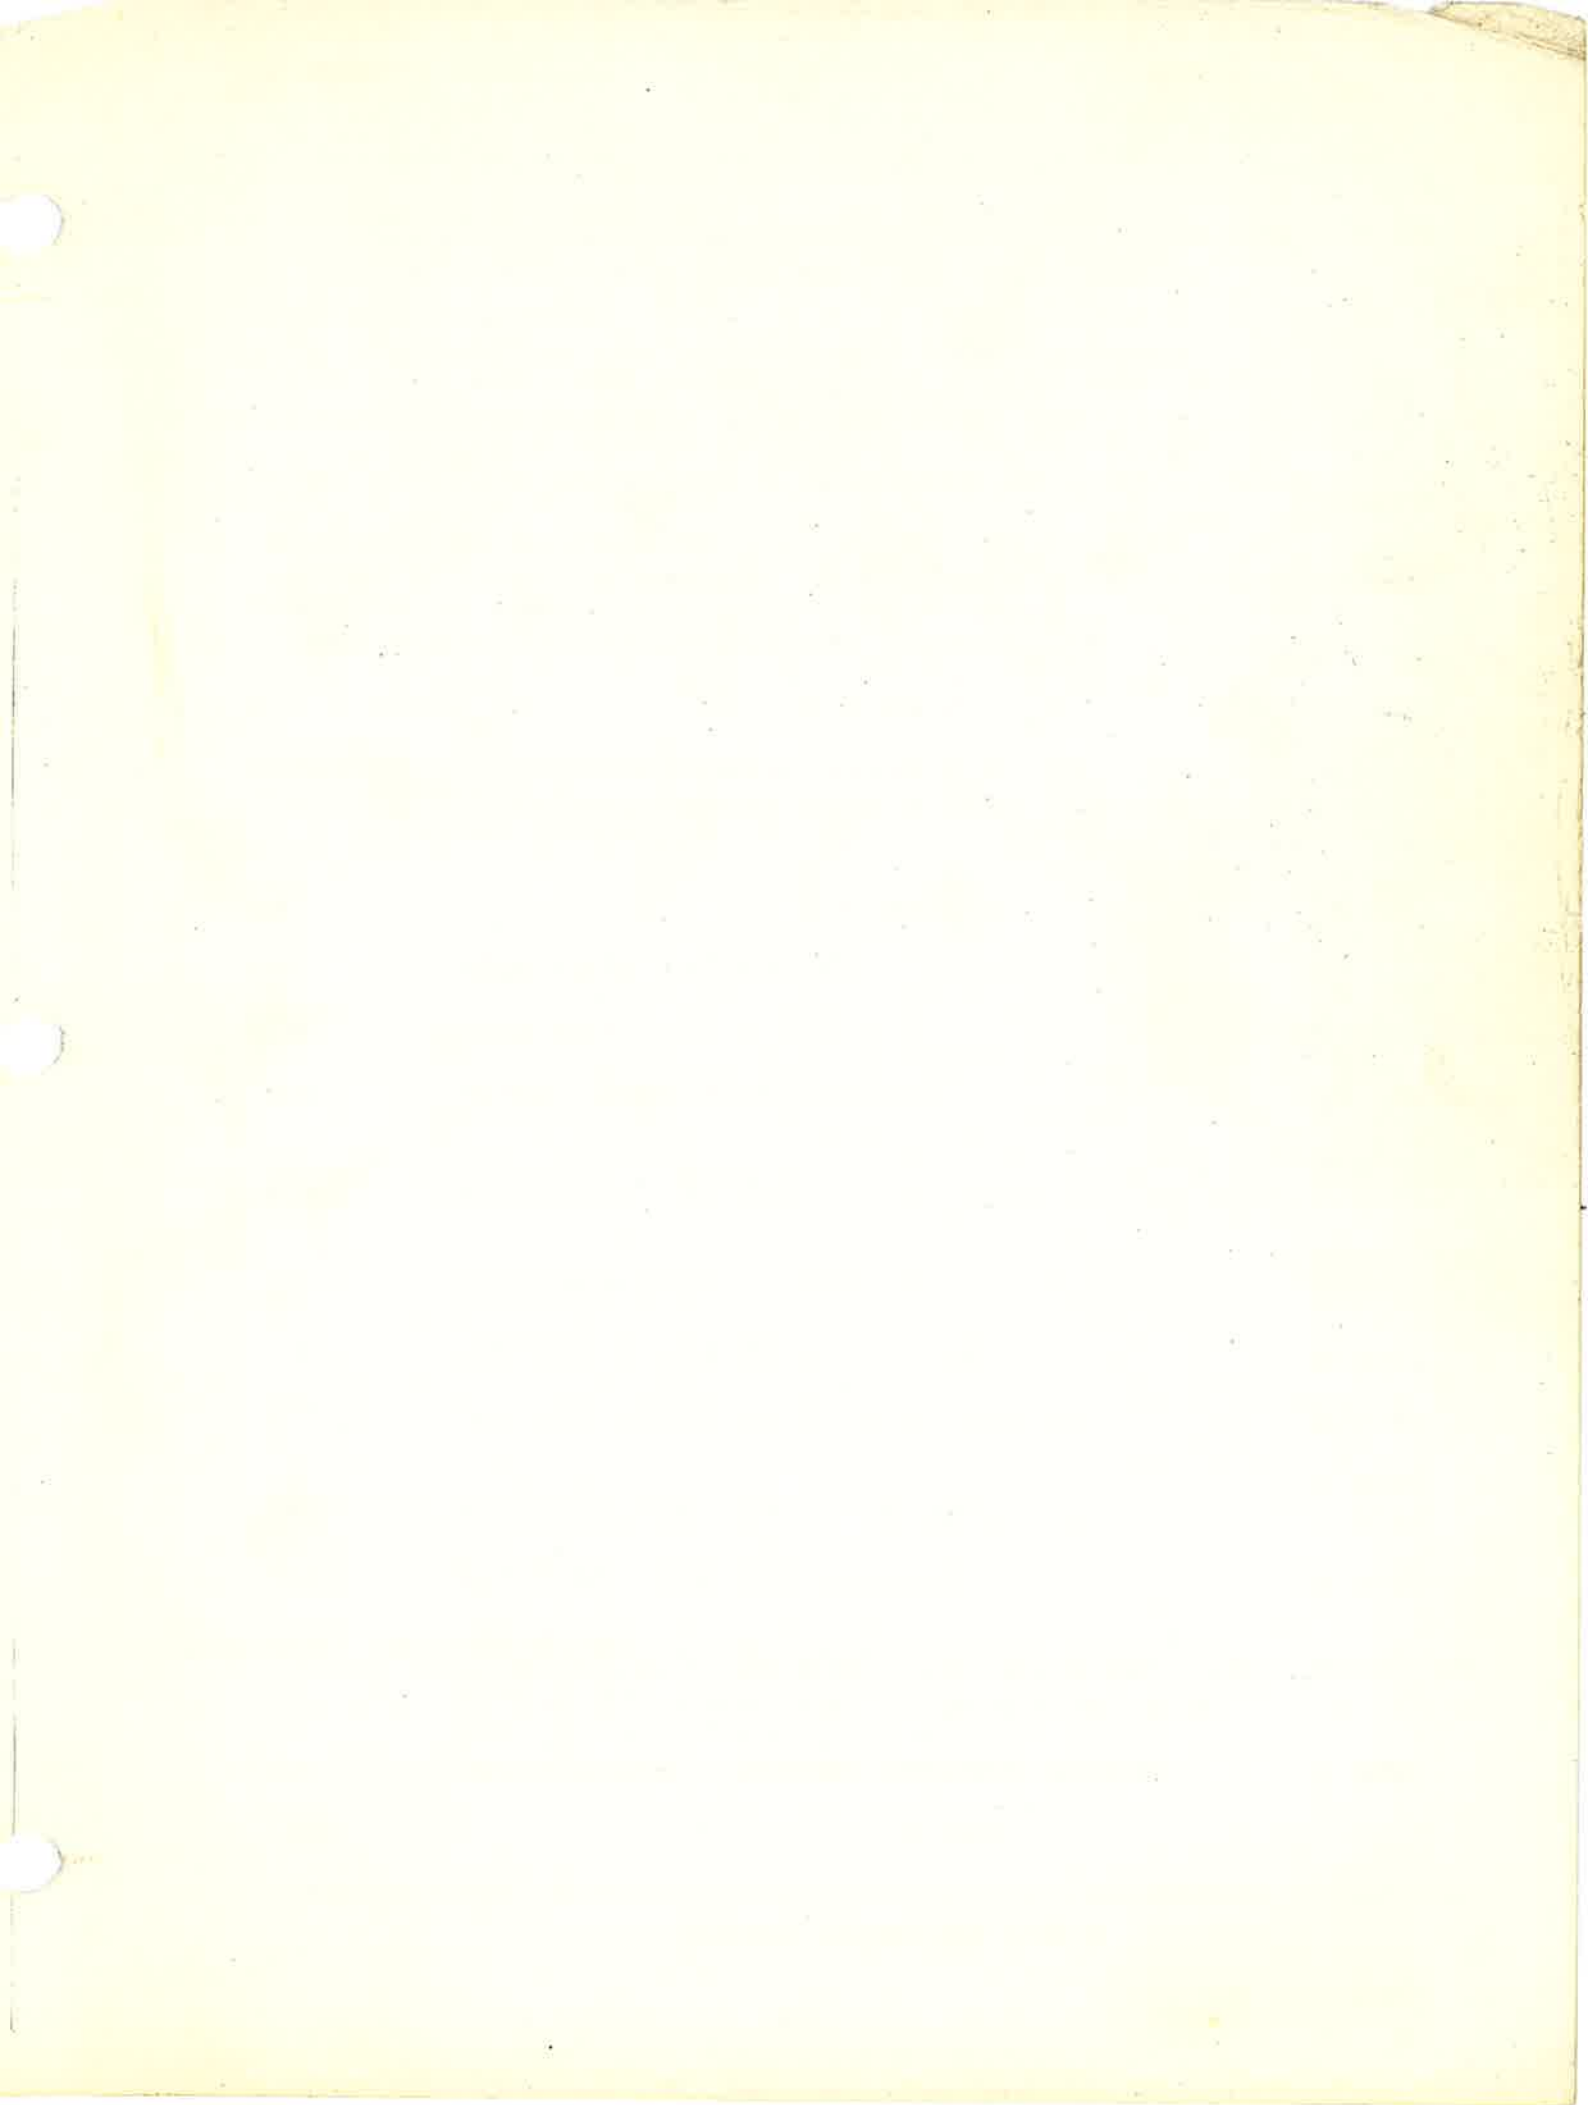

BODY PAINT

Touch up paint is available through Parts & Accessories outlets. When ordering touch up paint refer to the Body Colour symbol stamped on the Compliance Plate to ensure correct interpretation of the colour required.

SUPERSEDEENCE

When the correct part number listed in the catalogue is interpreted and the number is not stocked it is the duty of the reader to check the price list supplied by Parts & Accessories. If the part number does not appear in the price list the following conclusions can be drawn.

1. The part number is superseded or obsolete. Reference should be made to the consolidated "Obsolete - Superseded Parts List" and subsequent bulletins. Failure to follow this procedure can result in an unnecessary delay whilst Parts & Accessories investigate the query only to find the superseding part is readily available from stock.
2. A misprinted number in the parts list and reference to Parts & Accessories Division must be made.

This Alphabetical Index is provided as a help to guide the reader in locating a part when only the name of the part is available.

FOR EXAMPLE:-

IMPELLOR - WATER PUMP - 07-08-4

= 07 - Applicable to Group where part is to be found.

08 - Page reference in Group.

4 - Illustration Number on that page.

It should also be noted that Component Parts which are contained in assemblies such as carburettors and fuel pumps etc. are not listed individually, but will be found by reference to the assemblies.

SCORPION

SUBJECT: Introduction of GE SIGMA SCORPION VEHICLES.

FCHE022A.

MODELS: As Shown Below.

February, 1978. Page 1.

NON-INTERCHANGEABLE PARTS LIST.

<u>MODEL CODE</u>	<u>MODEL</u>	<u>ENGINE</u>	<u>TRANSMISSION</u>
GE7-P-29	CHRYSLER SIGMA SCORPION	4 Cylinder 2000 cc	5 Speed Manual
GE8-P-29	CHRYSLER SIGMA SCORPION	4 Cylinder 2000 cc	3 Speed Automatic

This list gives all known new Service Parts for Chrysler Sigma Scorpion 2 Door vehicles. When identifying replacement parts for these vehicles use this Bulletin FIRST.
