KDS-17

All of the features you would expect to find only in the world's finest dishwasher...

...you will find in KitchenAid.

7 pushbutton cycles...

Bio (Soak) Cycle. A patented KitchenAid feature. Soaks heavily soiled pots, pans, utensils and tableware, then washes and dries them automatically.

SaniCycle. Complete washing and drying cycle. For extra sanitization and health protection the final rinse water is heated up to 80°C.

Full Cycle. Complete washing and drying of normally soiled, mixed loads of dishes, glasses, pots, pans, and silverware.

Rinse/Hold. Partial loads (like breakfast dishes) are rinsed and then held moist till a full dishwasher load is accumulated. Saves hot water and detergent.

Light Soil. Complete washing and drying of moderateley soiled loads. Ideal for after-party clean up of glasses, cups, saucers, or dessert dishes.

Plate Warm. For an extra touch of elegance serve hot foods on pre-warmed dishes. This cycle warms your clean dishes and tableware.

Cancel/Drain. This button cancels any other cycle, drains the water, turns the dishwasher off.

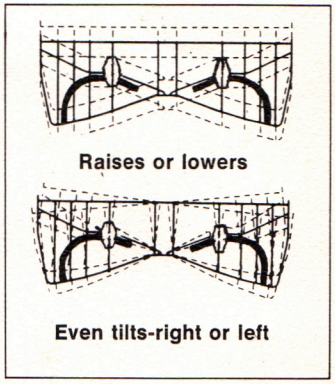

Big versatile spacemaker racks with adjustable features make loading easy. No wasted space!

Adjustable Dividers. They hold glasses and stemware securely, or fold down for deep pots, pans and similar items.

9-Position Upper Rack - You can lower it to take big things like mixing bowls. Raise it to put extra-large platters or chop plates in the lower rack. Tilt it to accommodate a broiler pan or other large or odd shaped items.

Compare the difference! Look for these extra convenience features.

Action Indicator Lights. Glow softly to tell you the phase of the cycle in which the dishwasher is operating.

Salt Indicator Light (water softener models only). Tells you when it is time to add salt to the adjustable water softener.

Automatic rapid reset. Timer is quickly advanced to off after Rinse/Hold cycle so dishwasher is ready for next load.

Monoblock Timer. Simplified design for greater reliability and efficiency.

Automatic water heaters - Heat water and maintain best washing temperature. Also heat water for 80°C SaniCycle. Not used for drying.

Automatic rinse agent dispenser. Releases a wetting agent into final rinse water to help everything dry without water spots. Adjustable to the concentrations of the different rinse agent brands.

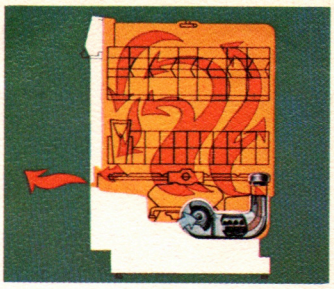

Safety door interlock. Wash action stops when you unlatch the door to add or remove tableware.

Built better, to work better, and last longer.

When you buy a KitchenAid dishwasher you're buying the product of a one-brand company.
No one else makes KitchenAid and it's not produced under any other name.
Thus, you can be sure that you'll be able to get service and parts if and when you should need them.
In fact, it is KitchenAid policy to have replacement parts available for 15 years after the latest model in each series is produced.
It is just another reason why you can buy KitchenAid with confidence.

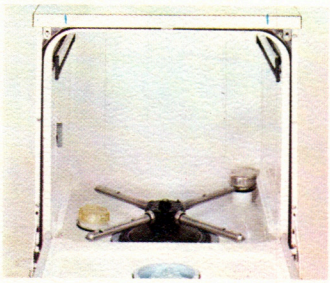

Exclusive Hydro Sweep Wash with Constant Rinse - Soil stripping action of KitchenAid single level wash is so effective, no hand-rinsing is needed. It's so thorough you get maximum use of both racks since no cut-outs are needed for a wash tube or other gimmicks.

Exclusive Flo-Thru Drying - Safe and thorough forced air drying. Fan and air heater are located outside the wash chamber. Sanitized, heated air is gently circulated over, under and around each item. No hot spots as in many dishwashers that have only a heating coil.

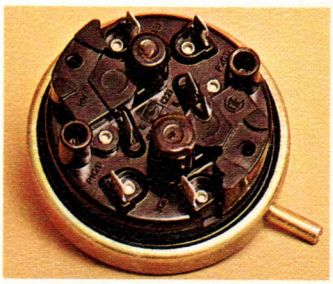

Exclusive SaniGuard filter - The stainless steel fine filter removes food soil from the recirculating water. At drain periods all soft food soil is flushed away. Bones, seeds and other large particles are caught by the coarse filter before they can damage the pump or clog the drain.

Exclusive TriDura-on-Steel wash chamber - Extra tough, 3-coat finish insulates, strengthens and protects the premium steel wash chamber. Immune to hot water, detergents, food acids and odors. Resists abrasion. Will not scratch, cut or fade. Stays beautiful.

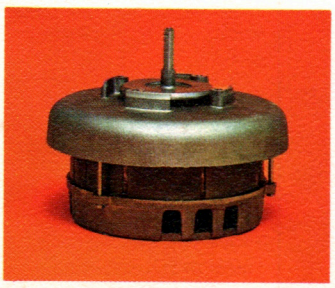

Extra large silverware basket - Compartments separate flatware for better washing. Items can be loaded with handles down or up. A special compartment holds long utensils such as ladles. Basket is removable for loading or unloading.

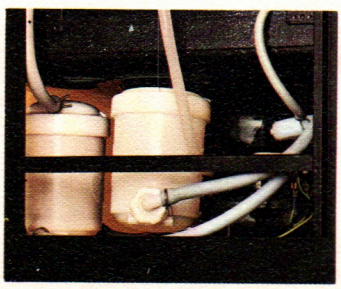

Double overflow protection - Not one, but two pressure switches control level of water in wash chamber preventing over flow. Should one fail the other takes over. KitchenAid closed position Drain Valve prevents waste water back-up into dishwasher.

The KitchenAid motor, designed exclusively for the KitchenAid dishwasher, for reliable long life performance.

NOW WITH A 5 YEAR WARRANTY

KitchenAid Motor - The hardest working, most expensive dishwasher part. KitchenAid has made it more reliable than ever before.

Automatic Water Softener – An optional extra for "hard-water" areas, which can be adjusted to varying degrees of hardness.

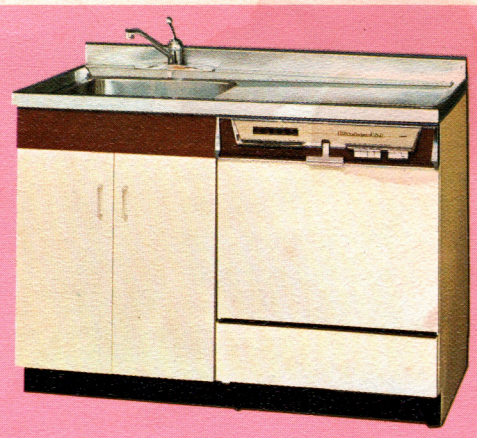

Double-door detergent dispenser. Fully automatic. Big capacity that's especially important in hard water areas. Bi-metal control for dependable operation.

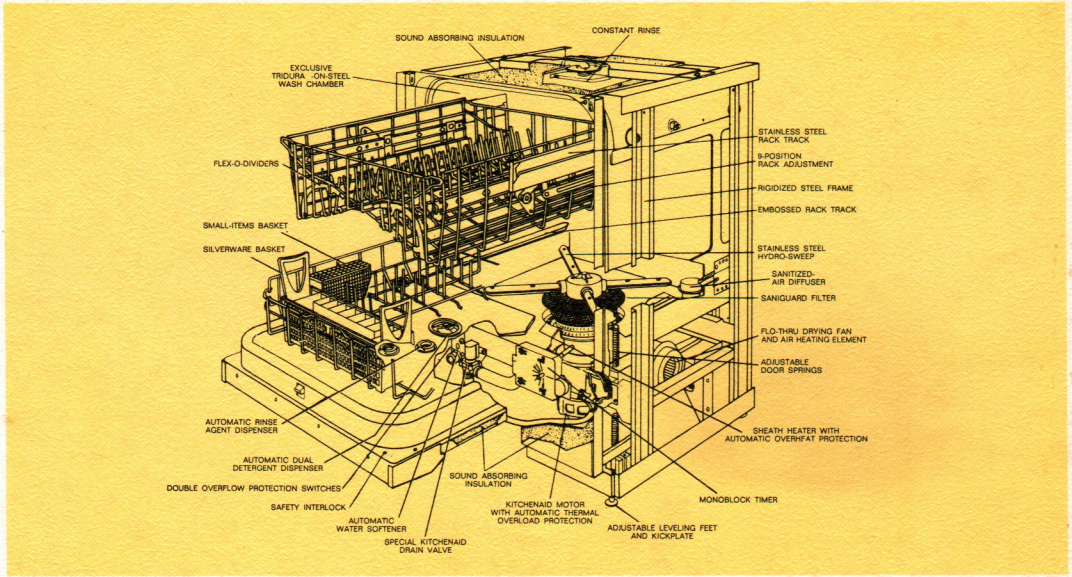

Dishwasher sink combinations.

Superba KDS-37

Ideal for replacing a kitchen sink with minimum remodelling or to replace a worn-out dishwasher-sink combination. It's a spacious storage cabinet and a KitchenAid dishwasher in one attractive unit. White finish only. The top is available in polished stainless steel. Comes complete with tap and drain fittings. For a complete food preparation centre add a KitchenAid Disposer and a KitchenAid Hot-water Dispenser.

Look behind the panels for the superior quality of every KitchenAid.

Electrical Data, Dimensions.

Type	Model	Water Heater Watts	Air Heater Watts	Max. Watts	Dimensions* – mm Depth	Width	Height
Undercounter	KDS-17	1250	1100	1500	635	600	820
Free-standing	KDS-27	1250	1100	1500	635	600	850
Mobile	KDS-57	1250	1100	1500	685	600	930
Dishwasher-sink	KDS-37	–	–	–	670	1225	875

All models use 240 volt, 50 HZ single phase. Have 2840 r.p.m. ⅓ h.p. motor. Connects to a 10 amp general purpose outlet.

Due to the KitchenAid policy of continued product improvement, KitchenAid reserves the right to change specifications or dimensions without notice.

*For precise dimensions contact your local dealer or nearest KitchenAid distributor.

Waste Compactors

End kitchen clutter. Compress boxes, bottles, cans and other waste down to about ¼ their original volume. Can be used with or without waste bags.

Waste Disposers

Rugged and reliable disposers work quietly and efficiently to rid you of all food waste. Exclusive Wham Jam Breaker clears the most stubborn obstructions.

Hot Water Dispensers

Like having a built-in teakettle. Gives you steaming hot water at the turn of a knob. For instant and convenience foods and drinks and many kitchen uses.
