

It's Victa time!

*and now there's one you
start with a key*

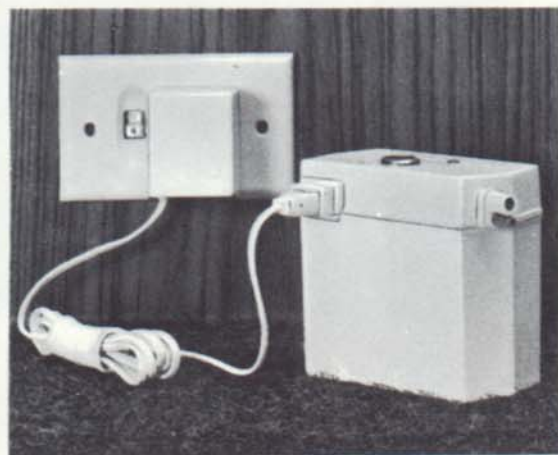

VICTA KEY-LECTRIC

the one you start like a Jag'

Just turn the key ... and mow. It's a revolutionary breakthrough ... effortless, reliable ... just turn the key, and Victa Key-lectric purrs with instant power. Mower starting was never this simple. Space Age nickel cadmium batteries, in a compact unit mounted on the handle crossbar, provide the power. It's instantly removable for re-charging, or you can simply plug it in while still on the mower if you wish.

Mow easy with the Victa Key-lectric—the mower that gives you easier-than-ever starting, plus all the features and the dependability that make Victa Australia's No. 1 mower.

Re-charging the Key-lectric power pack is simple—just plug into a power point. A slow trickle charge prevents possible damage from over-charging, no matter how long you leave it connected to the power point.

For extra muscle power, choose a Victa 160cc

Only Victa gives you the extra muscle power of 160cc's. This is the mighty 2-stroke engine that swept the market when Victa introduced it last year. It's the most exciting new development in powered lawn mowers in years.

Power a'plenty in reserve, whether you're grooming a fine lawn, or levelling the toughest jungle ... instant trouble-free starts ... almost impossible to stall... that's the Victa 160.

There are four models in this year's Victa range with the 160cc 2-stroke engine. Two of them are rear-catcher models (one self-propelled), and two are non-catcher models. Get behind one soon, and find out what a difference extra muscle power can make to your mowing.

Every Victa is now backed by this safety seal

Your guarantee that every Victa mower at the date of manufacture completely fulfils "Draft Australian Standard Safety Specifications for Power Lawn Mowers."

There's a complete list of safety features—many of them exclusive to Victa—on the back page of this folder.

Here's why Victa guarantees you safer mowing

1. New Armourlite grass catchers have built-in steel safety shield.
2. New spring-loaded safety flap on catcher chute.
3. New fully shrouded grass chutes on non-catcher models deflect well away from operator.
4. New stronger blades now of 14 gauge steel, designed for both cutting and catching—only two blades required.
5. New Protecta-blade safety rim disc reduces wear on blade assembly.
6. New nut and bolt blade assembly is stronger, foolproof; blades retract completely upon striking a solid object.
7. New automatic cut-out switch incorporated in the hand throttle on all 2-stroke models.
8. New air-vane governor on carburettor controls RPM for safer, sensible mowing.

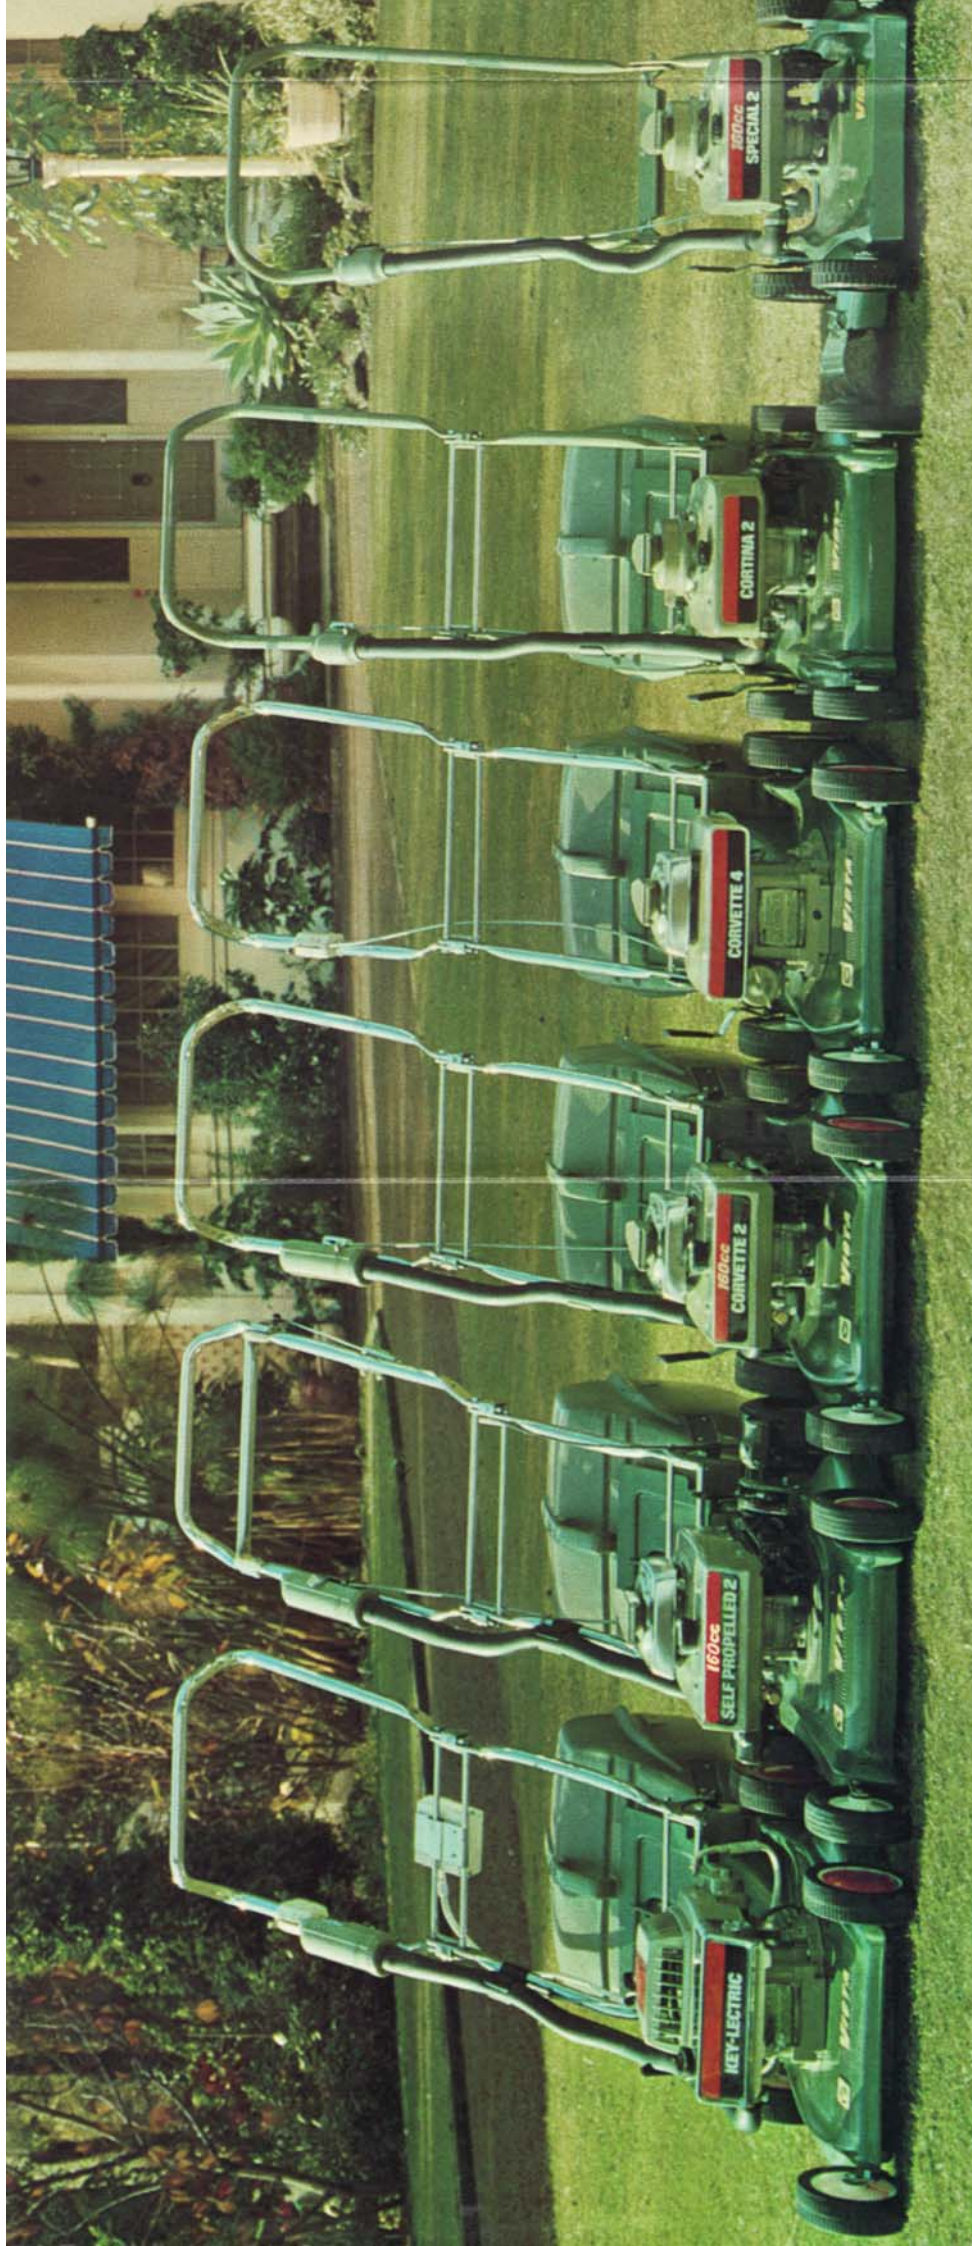

Victa: No.1 for after-sales service

Every Victa is covered by a twelve months' warranty. A large fleet of Victa service vans is always ready to give fast, efficient service in metropolitan areas. Victa dealers in country centres are specially trained by Victa to give the same standard of service. Genuine Victa replacement parts, vacuum packed for your protection, available from self-service bars at all Victa dealers.

Key-lectric

Just turn the key and mow. Key-lectric gives you easier-than-ever starting, with all the features and dependability that have made Victa Australia's No. 1 mower. If you ever lose your key, or forget to re-charge the batteries, your Key-lectric has a built-in automatic re-wind starter as well. \$204.00. Catcher \$14.30.

160cc Self Propelled

The Victa Self Propelled takes all the effort out of mowing. If you have a really large or hilly lawn, this is the mower for you, because there's no pushing—all you do is steer. Exclusive stop-go control bar gives safe, positive release to stop \$179.50. Catcher \$14.30.

160cc Corvette 2

Australia's most popular mower. Big 160cc 2-stroke engine has all the power you'll ever need. Impulse starter gives instant, reliable starting. Check overleaf for other Victa features. Unbeatable value in an unbeatable mower. \$152.00. Catcher \$14.30.

Corvette 4

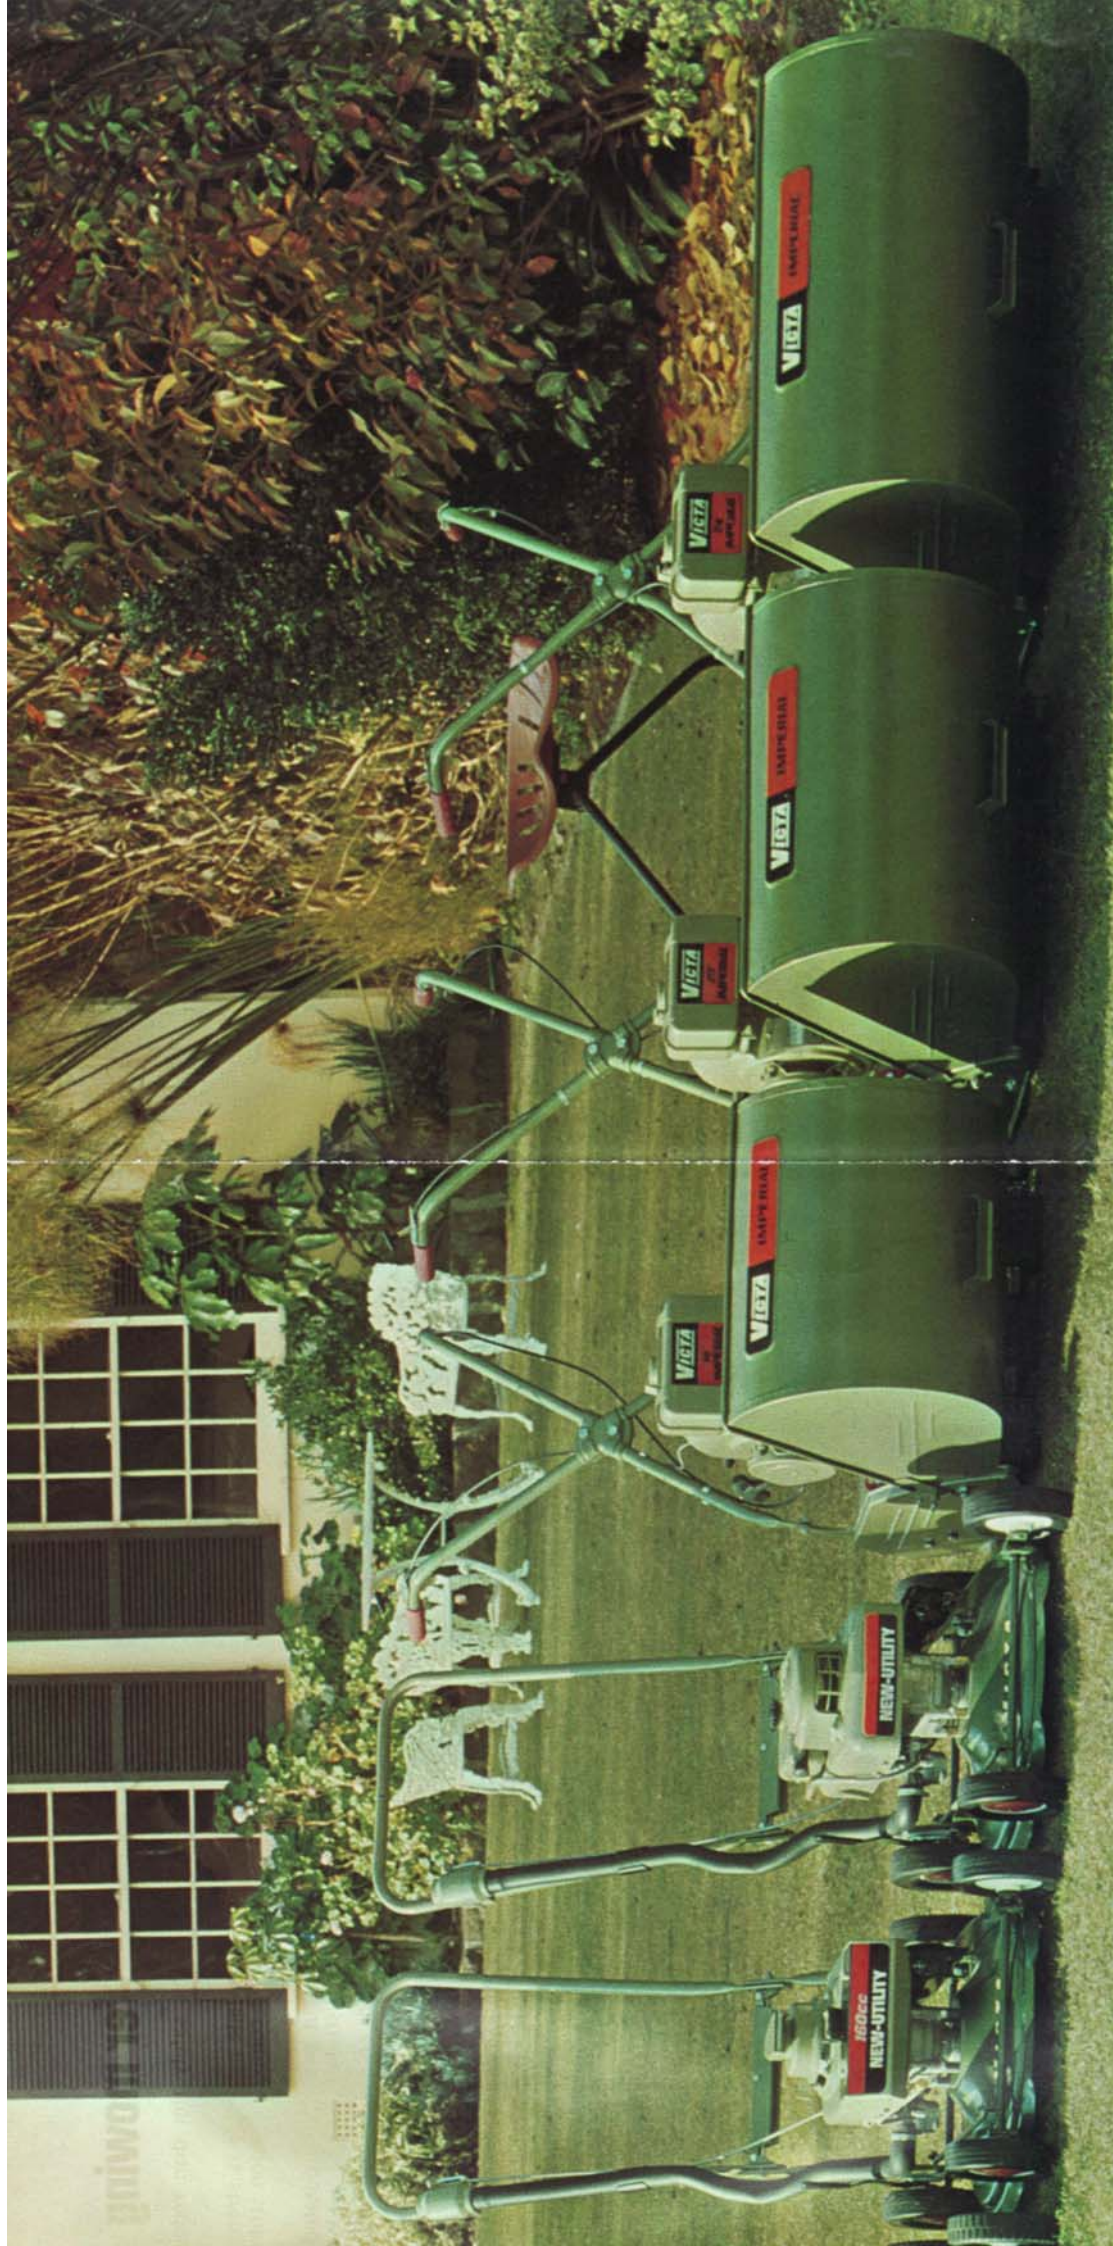

If you favour a 4-stroke engine, this is the mower for you. Has all the superior features of the popular Corvette 2, and is the finest 4-stroke you can buy. \$148.00. Catcher \$14.30.

Cortina 2

Big performance at a budget price. Cortina's engine is the famous Victa 125cc 2-stroke, with impulse start. Efficient ... dependable... and the Cortina is packed with convenience and safety features. Check the full list overleaf. \$136.50. Catcher \$14.30.

160cc Special 2

This Victa thrives on hard work, with its powerful 160cc 2-stroke engine, rugged functional design, and built-in Victa dependability. New blade assembly (on all models) reduces mower drag; blades stronger than ever—now of 14 gauge steel. \$138.50.

160cc New-Utility

Here's the extra power of the 160cc 2-stroke on a sturdy all-purpose workhorse. With impulse starting and new safety ring guard, New-Utility is equally at home in the rough, or trimming the finest lawn. \$128.50.

New-Utility

The latest in a long line of popular Victa Utility models. It's the economy mower of the range, powered by Victa's time-proven 125cc 2-stroke, now with enlarged flywheel. A rugged, honest worker. \$112.00.

Victa Imperial 16"

First of the three Victa self-propelled reel mowers ... the mowers for the man who feels his lawn deserves the extra care that only a reel type can give. Victa Imperials are built to the same quality standards for which Victa rotaries are renowned. \$227.00 (including catcher).

Victa Imperial 20"

Each Imperial features a unique double helical cutting reel that throws clippings to centre of catcher. Divided front and rear rollers permit easy handling, give smooth, banded, putting green finish. \$305.00 (including catcher).

Victa Imperial 24"

Silent nylon gears eliminate ratchet noise with Victa Imperial—the quiet-running reel mowers. Ball bearing cutting reel, rollers, and drive shaft. Each model beautifully balanced, geared to ideal speed range. Ride-aboard buggy optional extra on all models, \$363.00 (including catcher).
